

## Contents of Volume 25

<i>G.J. Downing, P. Yarlagadda and D. Maulik (Kansas City, MO)</i> Effects of acute hypoxemia on umbilical arterial Doppler indices in a fetal ovine model (EHD 01123)	1
<i>N.M. Fisk, P.K. Nicolaidis, S. Arulkumaran, M.W. Weg, Y. Tannirandorn, U. Nicolini, M.J. Parkes and C.H. Rodeck (London and Reading, U.K.)</i> Vibroacoustic stimulation is not associated with sudden fetal catecholamine release (EHD 01122)	11
<i>P.J. Roodenburg, J.W. Wladimiroff, A. van Es and H.F.R. Prechtl (Rotterdam and Groningen, The Netherlands)</i> Classification and quantitative aspects of fetal movements during the second half of normal pregnancy (EHD 01127)	19
<i>A. Knudsen (Aalborg, Denmark)</i> The influence of the reserve albumin concentration and pH on the cephalocaudal progression of jaundice in newborns (EHD 01129)	37
<i>P.O.D. Pharoah and K.J. Connolly (Sheffield, U.K.)</i> Relationship between maternal thyroxine levels during pregnancy and memory function in childhood (EHD 01131)	43
Abstracts of the Neonatal Society Meeting	53
Corrigendum	63
Book Review	65
Future Meetings	67
<i>M.F. Hird and A. Greenough (London, U.K.)</i> Spontaneous respiratory effort during mechanical ventilation in infants with and without acute respiratory distress (EHD 01134)	69
<i>Y.H. Neggers, G.R. Cutter, J.O. Alvarez, R.L. Goldenberg, R. Acton, R.C.P. Go and J.M. Roseman (Tuscaloosa and Birmingham, AL)</i> The relationship between maternal serum zinc levels during pregnancy and birthweight (EHD 01136)	75

- G. Wilson, G. Hughes, J. Rennie and C. Morley (Cambridge, U.K.)*  
Evaluation of two endotracheal suction regimes in babies ventilated for respiratory distress syndrome (EHD 01135) 87
- E.J.H. Mulder and G.H.A. Visser (Groningen, The Netherlands)*  
Growth and motor development in fetuses of women with type-1 diabetes.  
I. Early growth patterns (EHD 01139) 91
- E.J.H. Mulder and G.H.A. Visser (Groningen, The Netherlands)*  
Growth and motor development in fetuses of women with type-1 diabetes.  
II. Emergence of specific movement patterns (EHD 01138) 107
- E.J.H. Mulder, G.H.A. Visser, L.P. Morssink and J.I.P. de Vries (Groningen and Amsterdam, The Netherlands)*  
Growth and motor development in fetuses of women with type-1 diabetes.  
III. First trimester quantity of fetal movement patterns (EHD 01137) 117
- S. Shankaran, E. Woldt, T. Koepke, M.P. Bedard and R. Nandyal (Detroit, MI)*  
Acute neonatal morbidity and long-term central nervous system sequelae of perinatal asphyxia in term infants (EHD 01140) 135
- H. Endo and T. Oka (Tokyo, Japan)*  
An immunohistochemical study of bronchial cells producing surfactant protein A in the developing fetal lung (EHD 01141) 149
- A.N. Hunt, F.J. Kelly and A.D. Postle (Southampton, U.K.)*  
Developmental variation in whole human lung phosphatidylcholine molecular species: a comparison with guinea pig and rat (EHD 01147) 157
- A.D. Stein and J. Kline (New York, NY)*  
Pre-pregnant body size and spontaneous abortion of known karyotype (EHD 01143) 173
- F.R. Witter and B. Luke (Baltimore, MD)*  
The effect of maternal height on birth weight and birth length (EHD 01144) 181
- J. Deutinger, R. Rudelstorfer and G. Bernaschek (Vienna, Austria)*  
Vaginosonographic Doppler velocimetry in both uterine arteries: elevated left-right differences and relationship to fetal haemodynamics and outcome (EHD 01142) 187
- G. Spangler (Regensburg, F.R.G.)*  
The emergence of adrenocortical circadian function in newborns and infants and its relationship to sleep, feeding and maternal adrenocortical activity (EHD 01145) 197

	231
<i>C.-C. Huang and T.-F. Yeh (Tainan, Republic of China)</i>	
Assessment of gestational age in newborns by neurosonography (EHD 01146)	209
Book Reviews	221
